Bio

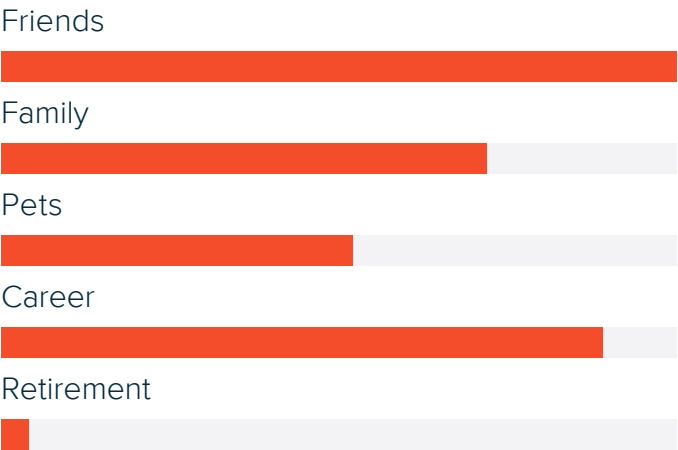

Tiffany is an artist; she does all kinds of art, but she works as a makeup artist and she loves it. She lives with her boyfriend of 10 years. She loves spending time with her friends and family. She's very active and doesn't like to stay home much. She likes to always be having fun with friends. She loves going out to eat or for drinks with friends, and attending parties and social events.

Her parents are in pretty good health, although they do have a few issues. She doesn't notice anything to worrisome so she really hasn't planned for the day when their independence might be threatened.
