

Aging Adult Monitor

User Flows

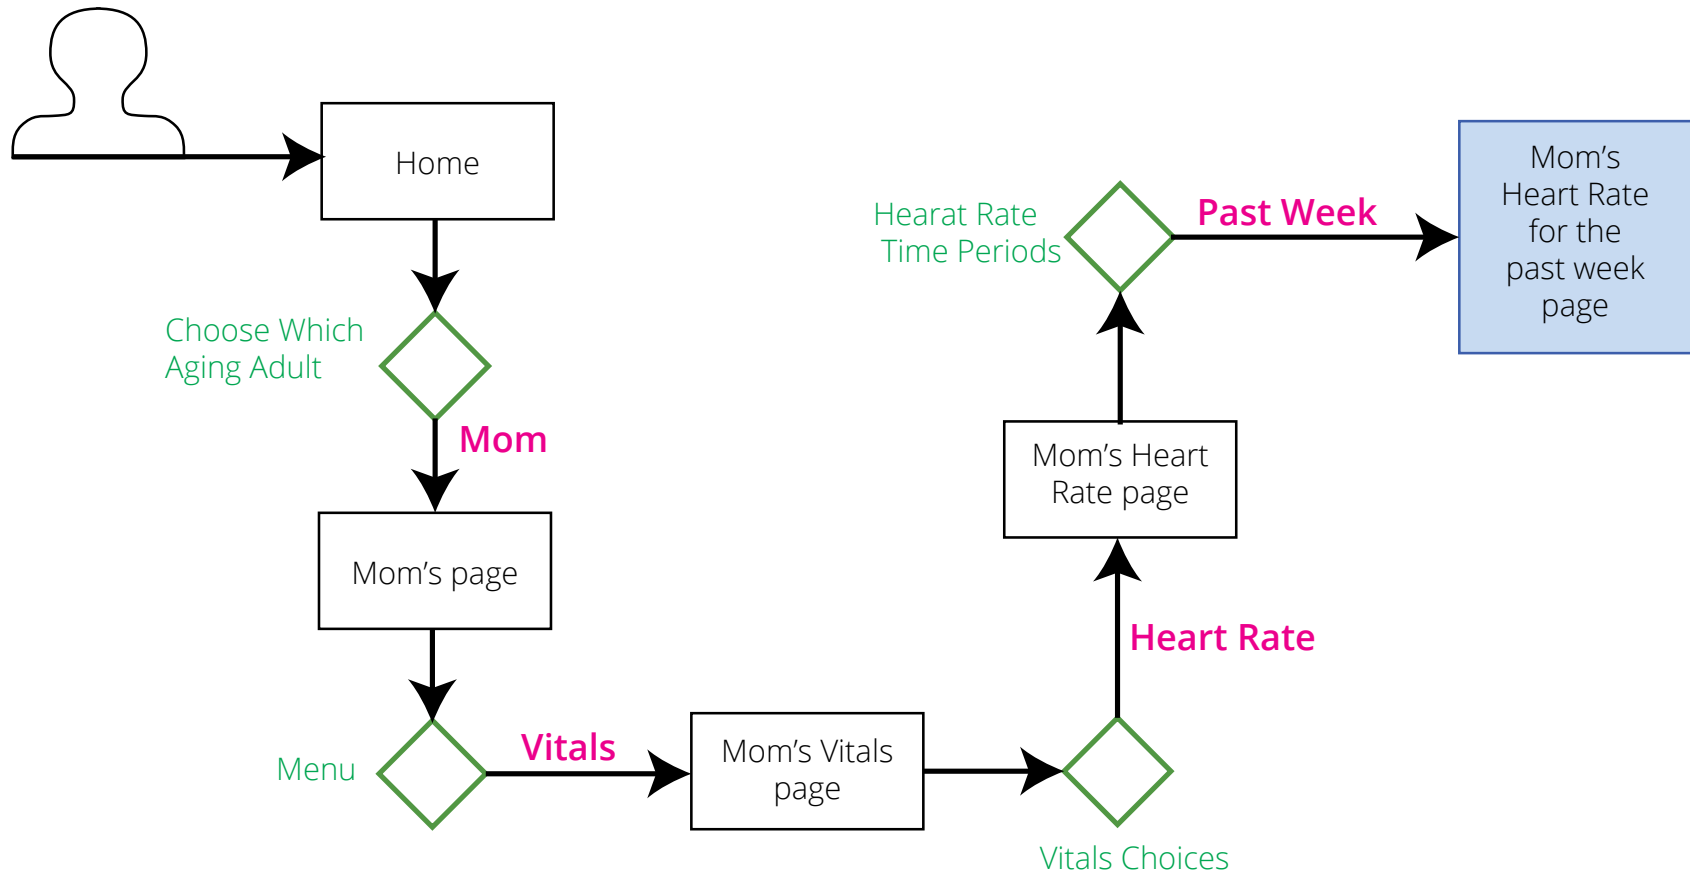

I created five user flows:

- View mom's current location
- View mom's heart rate for the past week
- View mom's health history - surgeries
- Add a new medication
- View mom's recent emergency alerts

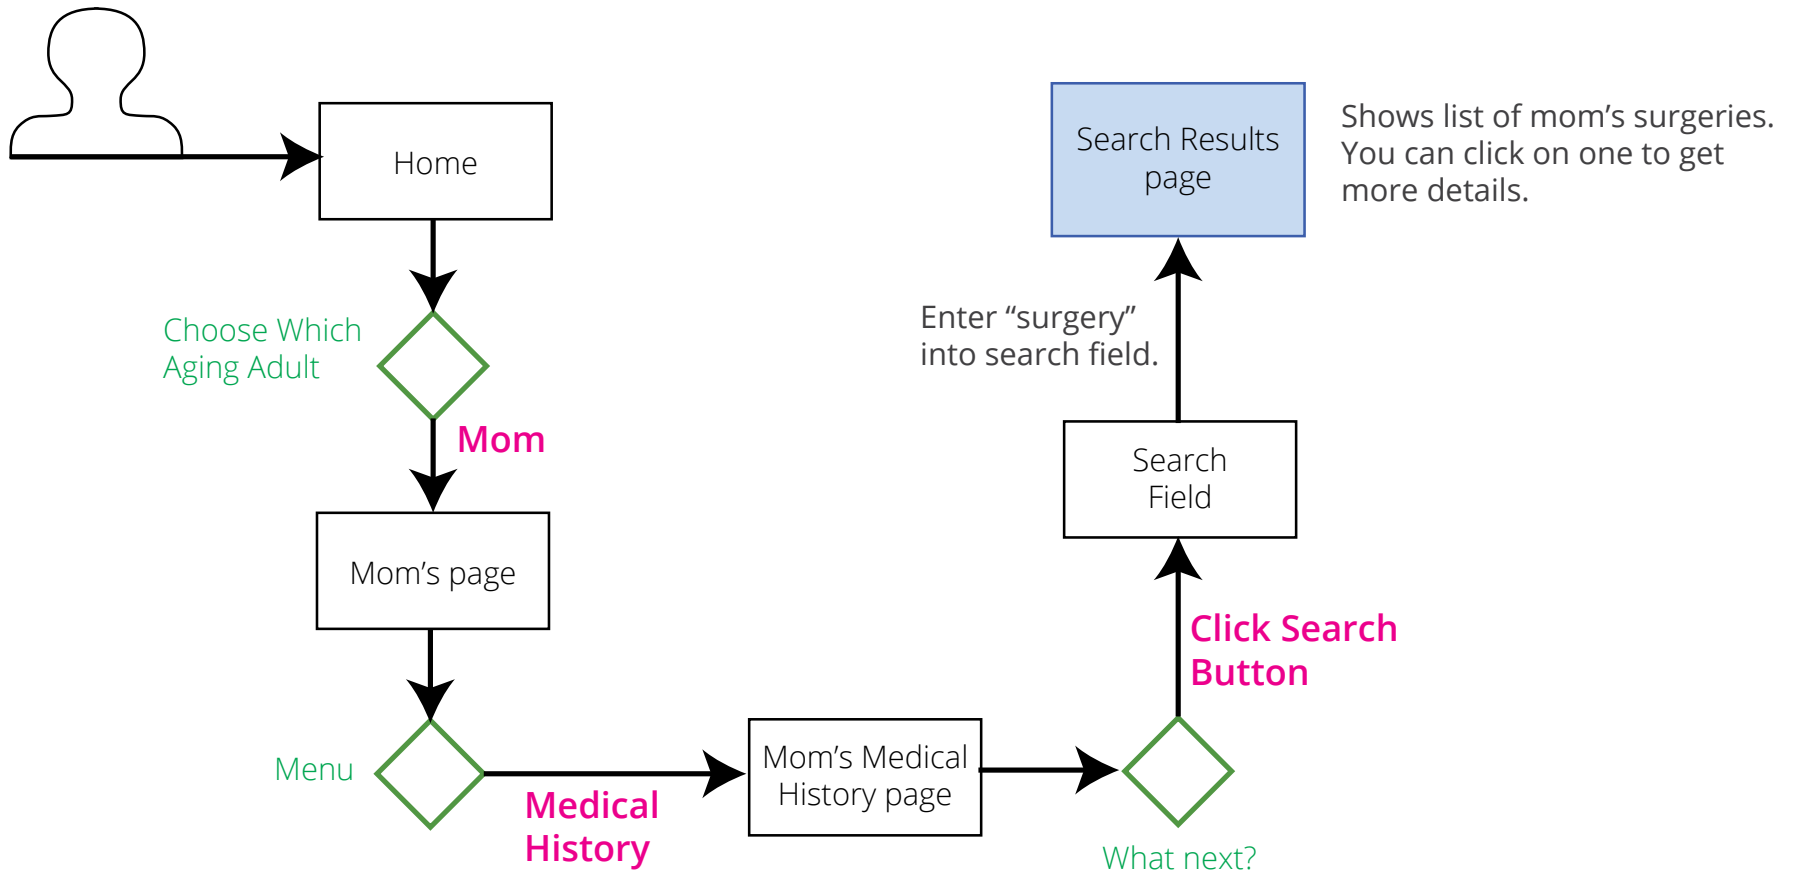

User Flow
View mom's current location

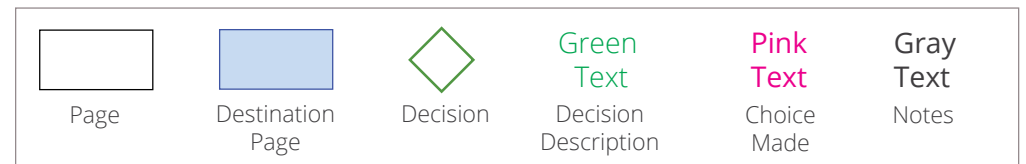

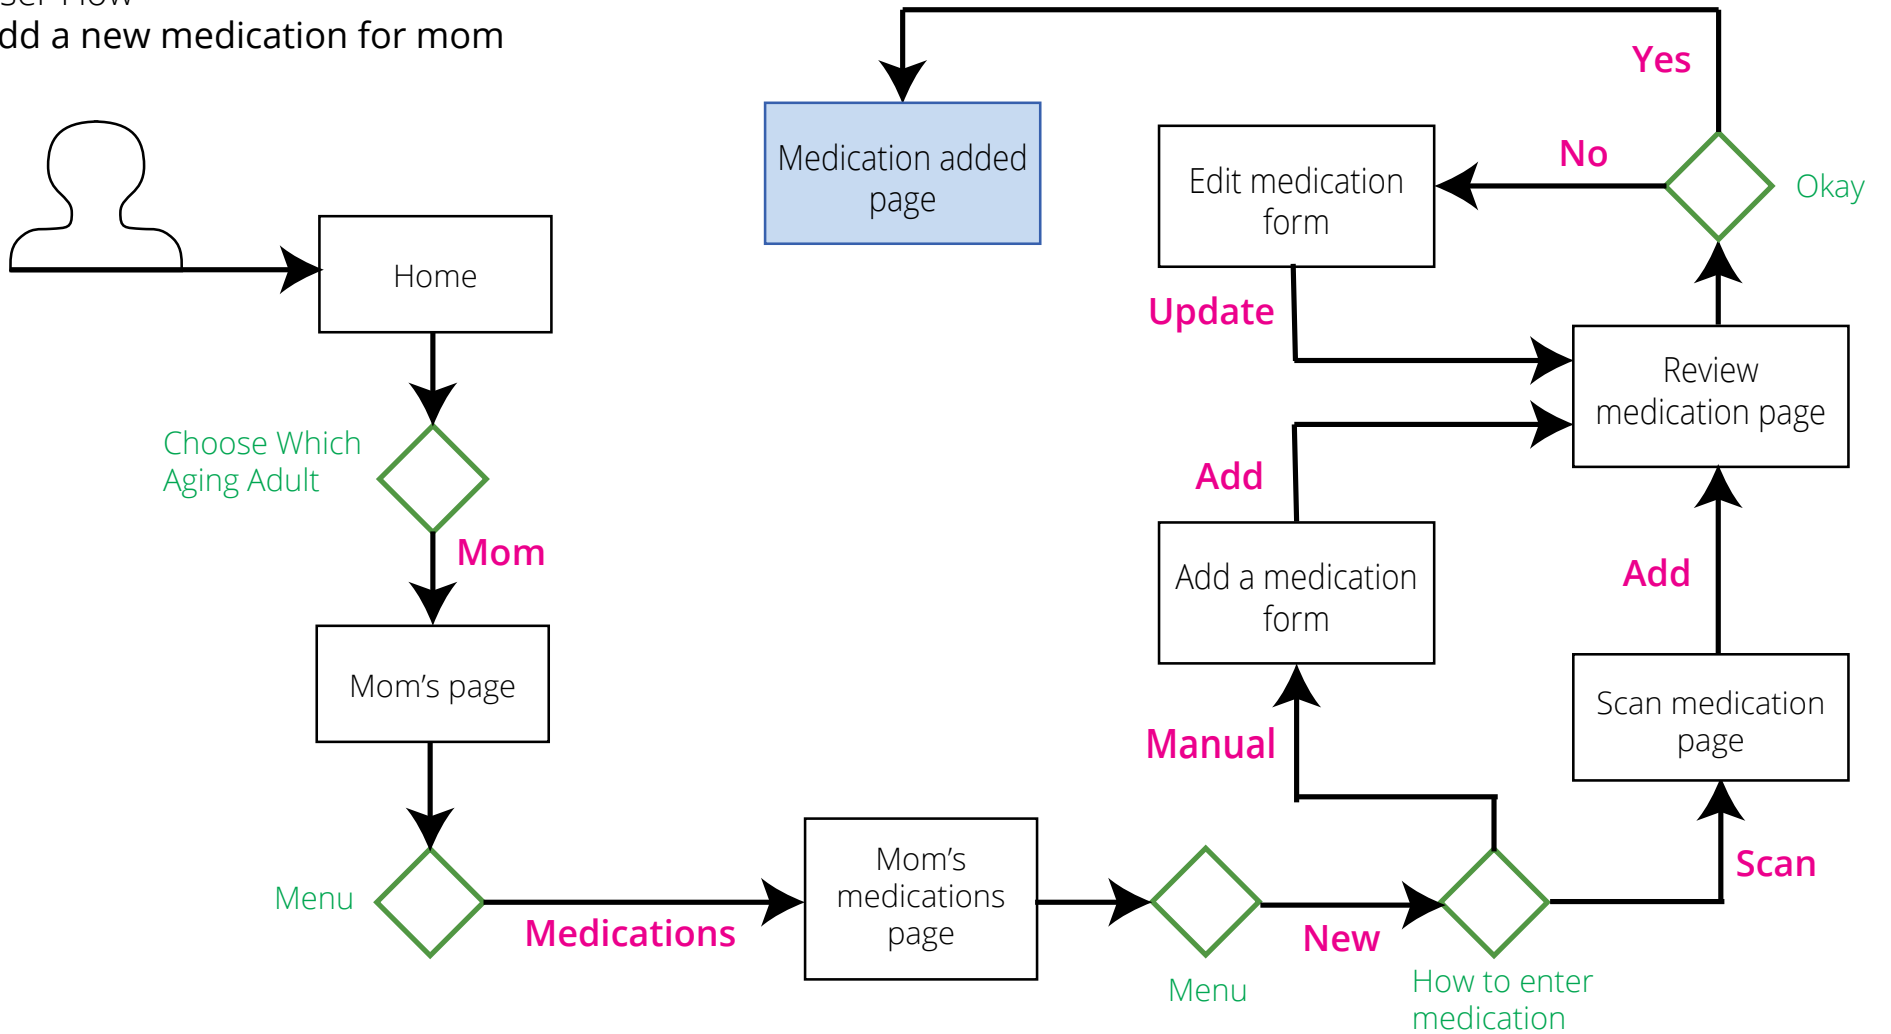

User Flow
View mom's heart rate for the past week

User Flow
View mom's medical history - surgeries

User Flow
Add a new medication for mom

User Flow
View mom's most recent emergency alert
