

Charlie

Goal: Keep his parents safe and happy in his home.

I want to trust my parents to be home alone for short periods.

I wish I could get my sibling to help with my parents more.

I take my parents to all doctor appointments.

I'm tired.

I'm protective of my parents.

THINK

I verify that my parents have taken their medications.

I worry about my parents' health.

FEEL

DO

I take my parents with me to some events so we can all get out and I know they're safe.

It's very sad watching my parents' health deteriorate.

SAY

I take my parents on great vacations where we all have fun and make memories.

I don't want to go out of town for work and leave my parents alone.

My parents' health and safety are the highest priority.

I have things under control caring for my parents.
