

Tiffany

Goal: Balance work, friends and family.

I know my parents have some issues, but I'm sure they're fine and they'll be around for a long time.

If my parents get to a point where they can't live independently, we will consider a nursing home.

I am not good at returning my parents' phone calls.

I love my friends.

I go out and socialize a lot.

I love my parents.

THINK

I spend a lot of time furthering my career.

I feel a bit guilty for not seeing my parents more.

FEEL

DO

My parents don't live real close so I see them once or twice a month.

I love my career.

SAY

I talk to my parents on the phone more than I see them.

I see my parents often.

My parents are fine.

I almost always return my parents' phone calls.

I would see my parents more if they lived closer.
